

Ecobag Network Sp. z o.o.

Since 2004

Ecobag Network is the largest producer of ecological paper bags with customer print in Poland. Ecobag Network in a very short time from a small bag-making company has become a giant in its industry. We owe our expansive success to investments in modern machinery, innovative production solutions and highly qualified staff. All these activities allow us, at the moment, timely implementation of various and multi-volume orders.

We specialize mainly in the production of ecological machine bags, prestigious bags enriched with all kinds of refinements and the production of various secure envelopes not available from other European suppliers.

We have been trusted by many clients, from small family businesses, through the pharmaceutical and banking sectors, to tycoons in the footwear and textile industry. We provide our graphic studios and technology department at clients' disposal – where graphic designs will be cost-free or improved.

We belong to the largest Polish group producing envelopes.

Our only owner is Kuvert Polska Sp. z o.o. has been on the market for 22 years, continuously and with many successes. One of the development paths chosen by Kuvert Polska was buying competing companies on the envelope market and companies from related industries.

The Kuvert Polska Group includes the main company Kuvert Polska Sp. z o.o. and its subsidiary company:

- Ecobag Network Sp. z o.o. www.ecobagnetwork.eu/en

- KUVERT POLSKA Sp. z o.o. www.kuvert.com.pl

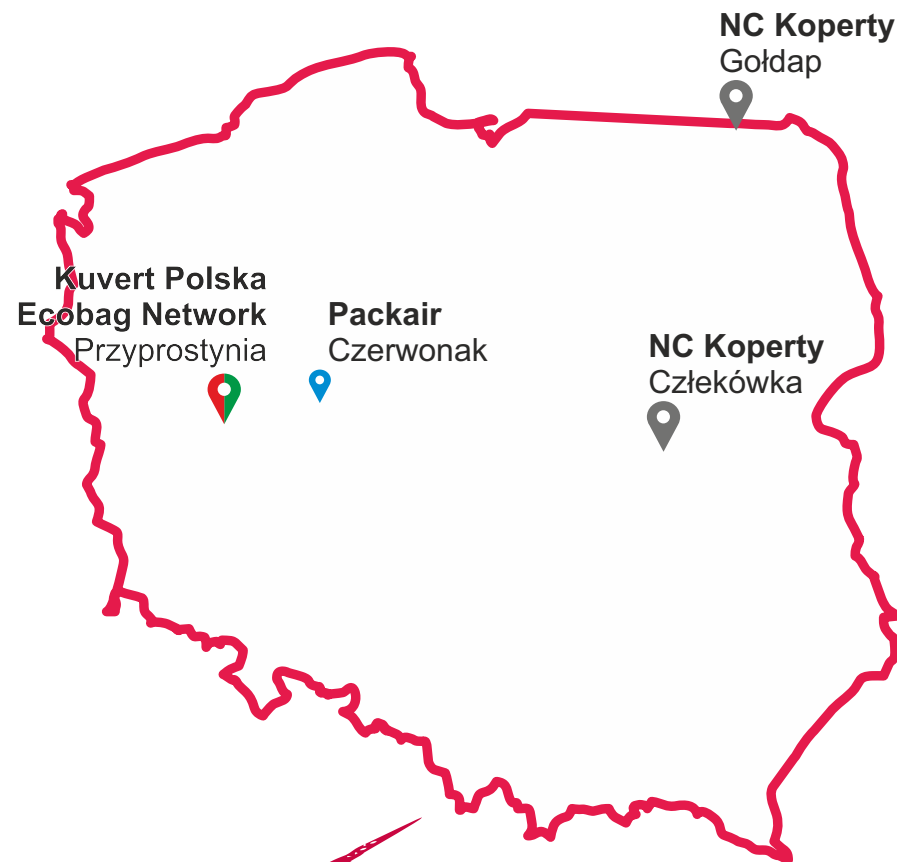

- Packair Sp. z o.o. www.packair.pl

- NC KOPERTY Sp. z o.o. www.nckoperty.pl

Location of KPG companies in Poland
